

PRAM, PUSH CHAIR AND STROLLER POLICY

Due to Access and Evacuation concerns, the WSEC has a policy that no items such as prams, strollers or push chairs can be left in the access ways of the WEC or the Stadium, during an event.

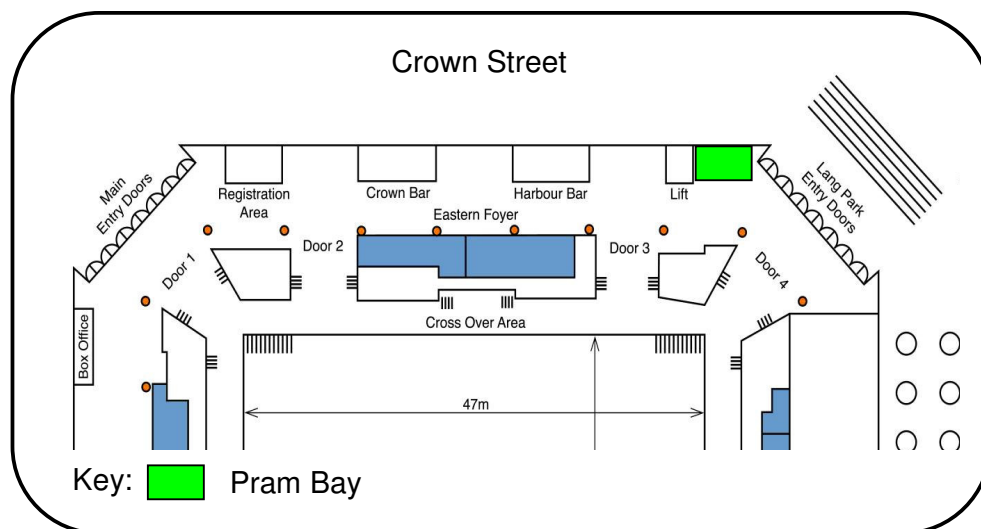

By leaving strollers or push chairs in access ways (especially the WEC cross-over aisle), they could create a possible obstruction to other patrons and in particular, could impede evacuation procedures of the venues (if necessary).

Where the event is considered to have the potential for a large number of prams, push chairs or strollers, the WSEC will establish 'Pram Bays' (usually in the North and/or South Foyers) where these items can be left.

In these cases patrons should be aware that the WSEC cannot take responsibility for these items. The WSEC's preference is actually that these items not be brought into the WEC.

In cases where a 'Pram Bay' has not been established, patrons should enquire from Venue Staff (including Ushers or Security Guards) where the prams, push chairs or strollers could be left in the foyers where all care but no responsibility will be taken.

The WSEC's major concern and legal obligation is the safety of patrons and guests to the venues and we thank patrons for their understanding in this regard.
